BACKLIT VINYL BANNERS

NTXPrint | Artwork setup guide

Enter your dimensions and finishing on the product page.

Download the exact-size template generated for those selections.

ARTWORK SIZE = FINISHED ORDER SIZE

Do not add bleed or crop marks.

Use a separate, single-page PDF or JPEG for each design.

CMYK color; 150 PPI at final size; outline fonts.

Extend backgrounds to all edges. Keep important text 1 inch inside.

Keep logos and small text clear of hems and mounting positions.

Choose single-layer printing for daytime viewing.

Choose double-layer printing for nighttime illuminated displays.

A nighttime print looks darker when it is not illuminated.

The template records selected hems, reinforcement and grommets.

Custom grommet spacing is confirmed in production.

Remove all guide lines and template text from production artwork.

Lightbox and installation hardware are not included.
